## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1-73 are generic to a plurality of disclosed patentably distinct species comprising purines substituted at 9 position by different substituents such as alkyls, cycloalkyls, heteroaryls, aryls, heterocycles. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Mr. Brion Heany on April 25, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1624

3. Note that the claims are renumbered according to rule 1.1126. Claims 48 and 55 were missing from the numbering. It is recommended that applicants fix this problem and provide a clean copy in response to this Office Action.
